The Ascendens Asia Journal of Multidisciplinary Research Abstracts (AAJMRA) is a collection of abstracts of research papers presented during Multidisciplinary Research Fests (MRFs) mainly organised by Ascendens Asia Singapore as well as other research conferences in collaboration with various institutions and learned societies. MRFs provide opportunities for collaboration with a common prime objective of creating platforms for students, faculty, staff, and researchers-alike from different institutions to interrelate/interact with their counterparts. MRFs, are expected to aide and promote personality development and critical thinking as participants engage themselves in constructive discussions with other participating researchers.

AAJMRAs are made available complimentary and for open access by Ascendens Asia Singapore. For more information, please contact publications@ascendensasiasingapore.com.
